Many Changes Are Evident to Mr. McStocker.

Francis B. McStocker, manager of Olaa Plantation, is in Honolulu for the first time since June, 1899, when he left for Olaa. Mr. McStocker is here to attend the meeting of the Planters' Association, and will remain ten days.

"The changes in the city have been great," he said last evening, "and one can hardly recognize the place. I have not gone about much, but in a drive through town I have seen the new buildings, and they are a matter of astonishment to one who has been absent for such a time. The city has a metropolitan air, given by the new great structures, and when all are completed it will not be the same place to one who saw it a few years ago. In a drive to Walkiki I was told of the work pro-posed along the road, and while I do not personally believe in making a residence section of the low lands, the improvement will be a great one.

"I have for years argued for a tropical city with wide streets and low buildings, more on the Mexican style of architecture. I have also urged that the residence portion of the city should be in the foothills. It would be much more in the line of building for posterity if the marshes in the city were filled in and made into parks, surrounded by boulevards, than that they be made the residence portion of the city.

'Polities have had little of my attention since leaving Honolulu, and I am not a prophet in any sense of the word. The outlook is one full of possibilities. There is, however, much necessity for a close canvass before one could say that there would be any material changes in the situation. I have not met and talked with any of the local politicians, but shall do so before I re-"Olaa Plantation is looking up, and

the prospects for surpassing my estimates are good. On last Monday we reached the highest output for our mill. The day's work was 172 tons of sugar. This is a great advance, and I expect to see the mill doing 200 tons a day soon. Our crop this year will be 23,000 tons. Our analysis is showing better all the time and now is as high or higher than that of some of the older plantations. While I stated that our crop would run five tons to the acre, I find that in many places that amount is exceeded, and I would be surprised if the future will not bring six or even seven cane from the Mountain View lands. CHAMPIONSHIP CUP using both rail and flume for delivery at the mill. This wil permit the lowland cane to ripen and it will be cut later. The higher levels are producing fine cane, and I predict that it will be of the very best cane land we have. Cane at Olaa grows and matures perfeetly at 3000 feet elevation. The conditions make it warmer there than at is certainly a prize worth the contest. half the distance up in Kau, for in- It is a solid silver cup with two hanstance, and we have water sufficient to dies, mounted on an ebony base. On the make it unnecessary to watch the seasons. From what we are doing I look ship, Boys' Brigade, Kapiolani Park, forward to having a 50,000 ton output, say the fourth crop from this time. This will mean nearly twice the area that we have now When this season that there will be in the neighborhood ends we will have over 9000 acres under of 100 competitors in all the events. This

A PROTEST OF THE GRAND ARMY

Editor Advertiser-My attention has been called to a letter in the Evening purpose equally as well as a new pa-Star, of Friday, March 21st, in which villon. Mr. Theodore Richards discusses the claims of John W. Lake, who is now in Oahu Prison working out a fine of \$50, imposed by the District Court, for the crime of gross cheat. Of Mr. Lake, in his relations to the court or to the business houses of this city, I have DELIVERED TO ANY PART OF THE nothing to say, as it cuts no figure in the purpose of this letter. I hope always to have words of praise for Mr. Richards, or of any person who will Half dozen Syphons in box. 75c. espouse the cause of the weak and the Also, all kinds of Soda Water unfortunate, for to err is human, and too often men have only stumbled in paths which multitudes have trodden in great weakness. The bit of sarcasm which I quote from Mr. Richards' let-Hawaiian Soda Works ter. I feel entitles the author to the censure of every honest-minded person in the community.

I am sorry to have to take issue with the local Grand Army of the Republic, not only for their judgment, but also for their charitable consideration of the case of a comrade. I have no patience with an effort to put a man where he not only cannot pay his debts, but when he has emerged therefrom, has m not the slightest chance of obtaining

a fair position. Had Mr. Richards sought for information at the right source, he would have learned that the local Grand Army of the Republic, neither as a body, nor as individuals, had the least thing to do with Mr. Lake's arrest, conviction or incarceration, and thus have been able (if he so desired) to have spared us the ungentlemanly, not to say unchristian fling at an organization which for nineteen years has had its resources overtaxed by calls for aid o distressed veterans of the Civil War, oo often the beneficiary being found unworthy, if not an out and out im-

When men consecrate their lives and heir wealth to the work of elevating fallen men, and of raising the standard of morals and common honesty, the ommunity has a right to expect from such, fair play, and a careful investi-gation of the facts about which they

We have cared for our sick and buried our dead, and never have we discriminated between those who were members of our order, and those who have not become members, so long as an integral part of that great army fire, with the result that every American on earth today can say. "We have

ECOLLEGE HILLS

LOTS FOR SALE.

The Trustees of the Oahu College offer for sale at very low prices, and on

VERY FAVORABLE TERMS

. (One-third cash; one-third one year; one-third two years' time, with interest at 6 per cent per annum) some very choice lots at Coilege Hills. The

RAPID TRANSIT

Company performs a twenty, minute service through the property; the College has provided a splendid and abundant supply of artesian water reaching over the entire tract, and the charges are reasonable. This is

A MOST HEALTHY LOCATION

and is entirely free from objectionable surroundings. No saloons, wash houses, ivery stables, poi shops and other naisances of like character are allowed, and by all means is the most attractive suburban district near Honolulu.

Persons desiring lots in this locality will be able to secure full particulars in regard an integral part of that great army to these lots by applying to Mr. P. C. JONES or Mr. JONATHAN SHAW at the office of the Trustees, No. 404 Judd Building.
